

# WORD WEB ACTIVITY KIT

## LL441 - WORD WEB ACTIVITY KIT

Build vocabulary skills one step at a time—with a hands-on kit that introduces 30 important prefixes, suffixes & root words! You get a 20" x 27" pocket chart with a word web on top and a write & wipe board below...plus 210 colour-coded vocabulary cards. Simply place a prefix, suffix or root card onto the chart, then encourage students to find 6 vocabulary cards with the same prefix, suffix or root...and build a web of related words! Students can even write each word in a sentence to reinforce its meaning! Includes an activity guide.

### KEY FEATURES

- 30 Prefix, suffix, and root word cards
- 210 word cards
- pocket chart with write & wipe board

### TARGET AREAS

- Vocabulary development: prefix, suffix, and root words
- Supports: Differentiated Instruction, Whole class, Small Group and Partner Instruction

### ASSESSMENT

- Assess students' understanding and use of suffixes, prefixes, and root words
- Focus on vocabulary development

## LESSON PLAN FOR WORD WEB ACTIVITY KIT

### Lesson Plan for small group instruction

#### Before

Assess the students' prior knowledge of what they know about prefixes, suffixes, and root words. Since this lesson plan is featuring the suffix SCOPE, assess prior knowledge of suffixes.

#### During

Choose either suffix, prefix, or root word, and place in the centre pocket. With this lesson plan the suffix card SCOPE is chosen and you provide the meaning of SCOPE. Have the students give words they know that have the suffix SCOPE. Write the words on the "write and wipe" section of the pocket chart. If students brainstorm a word that is in the kit you may place the card into one of the pockets. Have the students give the definition prior to placing the card into a pocket. Continue until all cards have been placed into pockets. You may wish to give clues about some of the words.

#### After

Have students write sentences for each word.

## EXTENSION ACTIVITIES

- Have students use a dictionary to find additional words that use the prefix, suffix, or root word
