Urgent - Safety Recall

DS301 Black Feels Real Baby Doll
DS302 Asian Feels Real Baby Doll
DS303 White Feels Real Baby Doll
DS304 First Nations Feels Real Baby Doll

Dear Customer,

WINTERGREEN Learning Materials, in cooperation with the Consumer Product Safety Commission (CPSC) AND in collaboration with Health Canada, is voluntarily recalling specific quantities of the above-mentioned Feels Real Baby Dolls. Dolls sold from 5/12/11 through 1/18/12 may have a production error that could result in the breakage of the dolls' fingers or toes. In turn, this breakage could present a small-part choking hazard. (Dolls can also be identified by their production number: 550200. This number can be found on a sewn-in label attached to each doll's diaper.) Although there have been no injuries reported, we are erring on the side of caution to recall this production run.

Our records indicate that you have purchased one or more dolls that could fall within the scope of this recall, please remove any dolls from use and destroy them immediately. Then complete the enclosed form and return it to us as soon as possible. After we receive your signed form, we will send you any replacement dolls absolutely free of charge.

WINTERGREEN Learning Materials is committed to the development of innovative educational materials, with safety as our most important concern. Thank you for your cooperation and continued partnership in the education and safety of our young people. If you should have any questions about these items or any of our other products, please contact our Customer Service Department at 1-800-268-1268.

This recall will be monitored for compliance by Health Canada.
