Birch Ramp Stands Assembly

Tools you will need(not included):

- Drill with Phillips Head bit or a Phillips Head Screwdriver

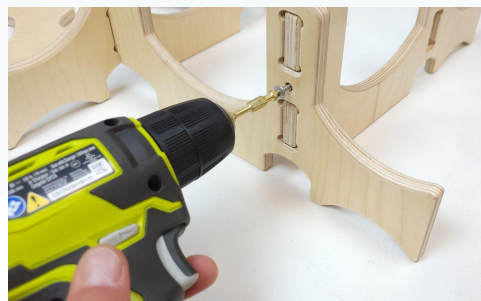

Hardware Included:

- 36: 1 ¼" Phillips Screws

Assembling the Birch Ramp Stands is simple!

Insert the tabs into the slots. Add a screw and tighten. Do this 36 times.
That's it!

Care: Clean Birch Ramp Stands with a damp cloth and mild detergent. Wipe away soap residue and dry thoroughly before storing. Inspect occasionally for wear due to normal use over time. Light sanding may be required. We suggest applying Thompson's Water Seal yearly.
