

Description

Imagine - Playstand - Natural Pod Play Stands are excellent props for creative open-ended play. They can be a store, a theatre, a house or whatever else a child's imagination makes it. Often used to create intimate spaces that children love such as a fort, a house, or a cozy reading nook. The archway is easily removed as play and age ranges change over time to transform the stand into a book or display shelf.

Our Natural Pod **Portable Chefs Kitchens** also fit perfectly on the top shelf helping you to combine a variety of items to extend the value of these pieces in your space.
