

Description

The **Stephanie Loft** With both a ramp and stairs, the Steph Loft supports fine motor development and exploration.

Natural Pod™ Play lofts were designed with the needs of learners in mind. They were intentionally designed to provide endless invitations for open-ended play where children can express themselves freely and let their imaginations transform the space into anything they wish; whether a fort, a castle, a reading nook, an enchanted forest, or perhaps a magical cave. Named after the educators whose own imaginations inspired them, each Natural Pod™ Play Loft is unique, beautiful, sustainable and extremely durable. They are designed to suit multiple space configurations and various stages of child development.

Product features

- Edges all smoothed and finished
- The steps can be positioned either on left or right side
- Accessible by a ramp and stairs, promoting multiple skills development.

Materials

- Europly FSC certified hardwood plywood (FSC R 012337)
- MPX® FSC certified hardwood plywood (FSC R 012337)
