

### WONDER LOFTS

#### Description

The **Holly Loft** is a great feature piece for larger spaces. This model has a large, 10' platform for exploration atop the loft along with a large space beneath the platform for reading, fort building or other imaginative play.

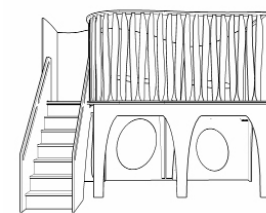

Natural Pod™ Play lofts were designed with the needs of learners in mind. They were intentionally designed to provide endless invitations for open-ended play where children can express themselves freely and let their imaginations transform the space into anything they wish; whether a fort, a castle, a reading nook, an enchanted forest, or perhaps a magical cave. Named after the educators whose own imaginations inspired them, each Natural Pod™ Play Loft is unique, beautiful, sustainable and extremely durable. They are designed to suit multiple space configurations and various stages of child development.
