

## Description

Tree House Loft is one of our largest lofts. Ideal in a large common space or library, this whimsical loft features a spiral staircase leading up to an elliptical deck. This two story loft offers children the option to play on the second level or create an entirely different world beneath the platform. All whilst having visibility through the slatted wooden supports.

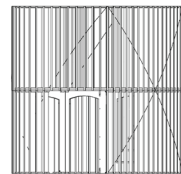

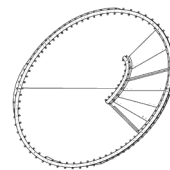

On the lower level there are shelves for storage and play and also two separate areas for exploration and activities.

## Product features

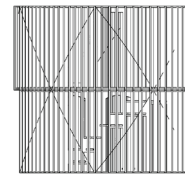

- Double level
- Internal spiral staircase
- 3 x large shelves
- Structurally self supporting
- The loft includes stainless steel lateral bracing cables
