GARDEN OF RELATIVES CARPETS

EXCLUSIVE

This beautiful, vibrant garden honours the connection of living beings; bringing together plants, trees, wildlife, and humans. From the classroom to the home playroom, this uniquely designed and functional carpet will engage children and enhance their interior environment.

The artwork was created by Hawlii Pichette, owner of Urban Iskewew. Each flower represents an animal, reptile or bird that is found throughout Turtle Island and is inspired by the tracks created as they move across the land. Hawlii is a Mushkego Cree, Mother, artist and illustrator. Her work is influenced by her culture, upbringing, and reflects the interconnection of the natural world.

This vibrant carpet also comes with an artist-created teaching guide, full of wildlife facts and beautiful illustrations. Manufactured with premium WearOn® nylon fibre for lasting beauty and durability in high-traffic areas. StainSmart® soil and stain technology allows ease of cleaning using only soap and water. SoftFlex® backing eliminates wrinkles and rug lies flat. Impervion® antimicrobial protection resists growth of bacteria and controls odours before they start. Certified Green Label Plus for the highest standard in Indoor Air Quality. Class I flammability rating. Manufacturer limited lifetime warranty.
