

# Name Puzzle

**Teacher Directions:** Try this fun, name-building puzzle! Provide copies of these puzzle pieces to each student in your class. Instruct them to use a dark marker or crayon to write the letters of their first name on the pieces—one letter per piece. Supply more copies for longer names. Have students color the puzzle pieces, cut them out and fit them together to spell their name. Store each puzzle in a baggie with the student's name on the outside. For a fun icebreaker, have students exchange puzzles with a partner. Challenge them to complete the puzzles as an introduction! *(For younger students, you may need to help with writing and cutting.)*
