

Sight-Word Derby Partner Game

Teacher Preparation:

1. Print out the game board and word cards. Cut along the horizontal dashed line on each piece of the game board and attach them together using tape. (You may want to laminate the game board and word cards so they're more durable for repeated use.)
2. Cut apart the word cards. Place them in an envelope to be stored with the game board.

Word Cards

do	other	if	many

Directions:

1. Place all 12 word cards facedown on the table. Take turns choosing a card and seeing whether it makes a sentence on your side of the board.
2. If the word does makes a sentence on your side of the board, place the card in the correct sentence. If the word does not fit in a sentence, place the card back on the table. Then it's your partner's turn.
3. The first player to complete all six sentences wins!
